Unwell Child Advice Sheet

Your child has been seen by the doctor and assessed to be safe to watch and manage at home

The plan is:

- Medicine: _____
- Other measures: _____
- Review time: _____

Please bring your child immediately back for review at the hospital if your child looks **BAD**:

B - Problems with **B**reathing

A - Reduced **A**ctivity

D - Not **D**inking enough

Breathing problems

- Unusual noises with breathing
- Breathing fast & shallow
- Getting tired with breathing

Reduced activity

- Becomes floppy
- Very sleepy, especially if difficult to wake them up
- Irritable
- Fit or convulsion

Not drinking enough

- Less than half normal intake for a baby
- Less than 4 wet nappies in 24hrs
- Very dark/concentrated urine in an older child
- Persistent vomiting and unable to keep fluid down

Please also bring your child back if you are otherwise concerned or don't feel comfortable looking after your child. We are always happy to review children again, no matter how many times they have already been seen. If there is no doctor on call for Mt Beauty eg over the weekend, the nurses at the hospital are still able to perform a full assessment, speak to the doctor on call over the phone and arrange transfer if necessary.
